Why Poland?

- ✓ Studying in Poland will give you a European degree at a low cost. Polish schools compete with each other not only to provide a wide variety of high quality courses, but also in offering attractive tuition fees.
- ✓ Polish schools are subject to the regulations of the Bologna Process that unifies education in the European Union and in program partnering countries. This means that your degree obtained in Poland is recognized internationally and opens doors to your further education in all the countries participating in the Bologna Process.
- ✓ Choosing Poland as your study destination, you not only go for a broad selection of courses, majors and specializations but most importantly you get the opportunity to join the best! Polish Information Technology graduates are twice over world champions in group-programming. Our astronomers and chemists also belong to the world league.
- ✓ Poland is a European country, yet the living costs are still lower than anywhere else in Europe. lower tuition fees and a cheaper student life!
- ✓ Poland is a dynamic country. In the second half of 2011 Poland will take over the Presidency of the European Union. In the following year, it will host the European Football Championships, commonly referred to as Euro 2012. This will provide a boost to the Polish economy, attracting foreign investors and creating new employment opportunities.
- ✓ Poland is a country where the cultures of East and West cross. On one day, in Podlasie Region, you can find the traces of the eastern cultures of the Tartars, Crimean Karaites,

Why Poland?

Russian Orthodox Old Believers, while on another you can enjoy western culture in the cities like Wroclaw or Krakow.

✓ The geographical positioning of Poland makes it an interesting place for explorers. If you would like to combine your studies with traveling, Poland is a perfect home base for you! It takes only two hours by plane to visit Rome,

✓ Poland is a safe country. We have one of the lowest crime rates in Europe. As in every place in the world, you need to use your common sense, yet you can be assured there are always municipal police and city guards to help you if need be.

Language courses

You do not have to know Polish in order to study in Poland. A good knowledge of English gives you an opportunity to study at the majority of Polish Universities. You can also pick courses in French or German. A few basic phrases in Polish though will make your stay more enjoyable in the country.

Most of the schools have Polish courses for beginners. If you would like to attend a university course which is lectured in Polish, your knowledge of the language should be sufficient to actively participate in the class. However, it does not mean that you should know Polish prior to arriving in the country!

Bachelor (BA, licencjat, inżynier, inż.)

is obtained after the completion of 3-4 years of vocational/technical college studies. Bachelor level allows students to continue their education at master-level courses.

Master (MA, MSc, magister, mgr.)

is gained having completed 5-6 years of university studies, a successful dissertation of the master thesis and passing the final exam. Master degree may also be obtained after 2-2,5 years of supplementary master's degree studies undertaken by students with Bachelor degree.

Doktor (PhD, doctor, dr.)

is a post graduate degree. To qualify for Phd Studies (3-4 years) a candidate must hold a master or equivalent degree. The degree may also be awarded to those who have worked at university for several years and have not been enrolled in PhD studies. In both cases the doctor's degree /PhD is granted on the basis of a successfully defended dissertation. Degrees are awarded by the authorised faculty councils.
